Selected Work Experience

CAD Subcontractor

with Global Refining Group

December 2022 - August 2023

I was a Subcontractor with Global Refining Group. I had to learn new skills and quickly adapt to a fast-paced environment where new ideas pop up constantly. I was able to use my skills from SCAD to become efficient in Autodesk Fusion 360, which was a new program to me.

Production Designer - "Sleepless"

SCAD Graduate Film

April 2022

I was the Production Designer, Graphic Designer, Prop Master, and Set Dresser for this film. I had about a week to get everything ready for filming, and then filmed under very tight turnarounds. I worked with the crew to ensure the director's vision came true while also staying within our budget.

Set Dresser/Assistant Prop Maker - "Get Real"

SCAD Graduate Film

January - April 2022

I worked on props and set dressing for the Tundra and Alpine scenes. This was a film on the SCAD XR Stage, the first for a college to have in the United States.
